

# Summer 2020 Teacher Workshops

These workshops will introduce the Chinese AP exam and themes to Chinese DLI teachers including upper level of elementary teachers, secondary teachers, new DLI 5/AP teachers, and experienced AP teachers, to better assess students' proficiency level based on ACTFL proficiency guideline and AP scoring guidelines.

Through varied design approaches, teachers of all grade levels will be encouraged to work together to form a pipeline from elementary school all the way to high school in order to help students be ready for their AP exam.

Attending any one of these two workshops will receive USBE credits
